- **Tools:** Visual Studio, Eclipse, GitHub, Android Studio, MS Office Suite

## Education

### Bachelor of Science (BSc), Computer Science

2018

*York University, Ontario*

Courses included: EECS3101 Design and Analysis of Algorithms, EECS3461 User Interfaces, EECS331 Software Design, EECS4411 Database Management Systems

#### Relevant Projects:

- Eiffel: Scientific Calculator utilizing Programming by Contract
- UI/UX Design: Heart health application for the elderly

## Work Experience

### Junior Software Developer

March 2019 – December 2019

*Soluno (Devlos Software Inc.)*

- Developed and maintained cloud-based legal accounting application components in JavaScript (AngularJS) and C#
- Debugged and refactored existing product code
- Resolved support tickets coming through live chat or email (2-5 per day)
- **Project:** Complete product UI overhaul and report generation tool rebuild using AngularJS and C# to improve overall customer experience and to optimize and ease the process of creating user reports.

### Team Lead

May 2013 – March 2019

*PartSource / Canadian Tire Corp.*

- Led the team of 3-5 members in absence of the store manager
- Substantially cut (~80%) IT support calls by learning the works of all store systems used to aid with troubleshooting
- Established a centralized driver dispatch system to optimize product delivery times to customers, which improved average delivery time from 45min to 25min
- Introduced paper recycling to establish a green work environment
